

Introducing *OralTox*[®] Rapid Oral Fluid Drug Screen Device

Easy-To-Use Rapid Oral Fluid Test That Delivers Fast, Accurate Results Anytime And Anywhere

OralTox[®] is an instant oral fluid testing device manufactured by Premier Biotech. OralTox is a FDA 510(k) cleared patented device that identifies the absence or presence of illicit drugs in minutes.

Oral fluid drug testing offers a minimally-invasive, observed collection to detect recent drug use. Using oral fluid, the collector can oversee a donor as he or she collects their own oral fluid specimens, reducing the likelihood of tampering or cheating as well as a donor challenge later in the drug testing process. When speed is a high priority, OralTox offers flexibility for hiring events, job fairs, and on-site collections.

OralTox Advantages

- Quick results in minutes
- Collections are observed
- Prevents adulteration or substitution
- Easy to administer and interpret
- Proven accuracy, sensitivity, and reliability
- Patented design with one drug per strip
- Saturation indicator to ensure specimen collection was complete
- Built in gravity feed for sample distribution

Designed For Speed And Reliability

The streamlined design of OralTox stands out with all the bells and whistles helping to ensure the collection process is easy to administer while highly accurate. OralTox features a built-in saturation indicator that changes color when the appropriate specimen amount has been collected. This feature eliminates the guesswork during the collection and helps to reduce recollections stemming from an insufficient oral fluid sample.

Available Configurations

- 5 Panel: OT-80502 (AMP, COC, MET, OPI, THC)
- 5 Panel: OT-80508 (AMP, COC, MET, OPI, PCP)
- 6 Panel: OT-80602 (AMP, COC, MET, OPI, PCP, THC)
- 7 Panel: OT-80701 (AMP, COC, MET, OPI, OXY, PCP, THC)
- 8 Panel: OT-80807 (AMP, COC, MET, OPI, OXY, PCP, THC, MTD)
- 10 Panel: OT-81053 (AMP, BAR, BZO, COC, MET, MTD, OPI, OXY, PCP, THC)
